

## We specialize in Recovery and offer services worldwide.

Our professional staff travels worldwide to perform interventions 365 days a year. We have many years combined experience dealing with difficult situations for all kinds of addictions.

Ken Seeley, our founder, has a long history of helping thousands begin their journey with recovery. Invited as a recovery expert on numerous television and radio shows, Ken offers an inspiring viewpoint which is candid and honest. Ken works closely with the treatment team at Intervention 911 to continue to educate families to bring about the 'rock bottom' which begins the recovery process.

# You have the power to create their Rock Bottom

## Intervention *HELPS*...

Intervention 911 helps you raise the bottom, which is the turning point everyone must face before they choose recovery over addiction / dysfunctional behavior. Don't wait for the natural progression of the disease of addiction to rob you of your loved one forever. Let us help you identify and create the rock bottom which allows your loved one to realize the severity of their problem and choose recovery.

## Create a Rock Bottom. Move them into recovery.

- Prevent potentially irreversible or lethal health problems.
- Create an environment with healthy boundaries in a compassionate way.
- Evaluate legal issues and determine how they can be used to support recovery.
- Learn how you are financially supporting dysfunctional behavior.
- Share the ultimate gift of renewed relationships and hope for the future.

Are you ready to raise their Rock Bottom?

## Intervention 911 created the HELPS model

which has proved successful in countless interventions. It is the key to creating the rock bottom. We look at the five areas in which the consequences of addiction take their toll...

**Health** Addiction is a physical disease, affecting the user's body from the inside out. Consequences range from liver disease, skin abscesses, premature aging, psychiatric disorders, memory loss, central nervous system damage and eventually, death.

**Environmental** It has been proven that environmental factors strongly influences or arrests the development and subsequent behaviors of the addict. Are you supporting recovery or enabling addiction?

**Legal** Addiction involves legal consequences ranging from DUI's, arrests, marital separation, divorce and loss of child custody. More often than not the addict will participate in illegal activities in order to support and maintain their habit.

**Personal finances** Addiction creates financial crisis, ranging from job termination, eviction, foreclosure and even bankruptcy. Supporting your loved one financially by giving them money, paying their bills or employing them can enable addiction.

**Spiritual** Has your loved one lost faith, hope and peace in their life? Addiction is a spiritual sickness robbing the user of spirit and soul; leaving them to feel hopeless and alone.

By identifying and creating the consequences and implementing healthy boundaries in a respectful and unified manner, HELPS manually raises the rock bottom instead of waiting for the natural progression of the addiction which can lead to death.

**i911** The solution starts here.
